INTRODUCTION

Thank you for your interest in **The Gemini - International** . We are living in the era of Information Technology. There is no need to describe the importance & significance of the wide - spread use of software systems. There is always a demand for custom software as each business has its own requirement. For the hanging nature of requirements and complexity of enterprise applications, we must consider good adaptability. We have defined our development standards for project management, methodologies, project templates for different requirements, reusable libraries, coding and naming standards according to industry standards and best practices. It also enables us to efficiently use of resource resulting low development cost. This is the way how we produce creative, effective and cost effective customized solutions for you, and measure our success by your success, you are our partners, we are sharing success together.

AGENDA

The information contained in this packet provides you with a brief introduction to who we are, what we do, and how The Gemini - International can be of value to your business. To accomplish this, we present an overview of our services, highlight our capabilities, and offer some brief examples of our experience. The content is broken down as follows: Corporate Overview, Available Services, Products, Our Team, Process & Contact Information.

Because every client's project poses its own set of unique challenges, it is impossible to compose one document that completely addresses everyone's specific needs. What we have attempted to do in the following pages is simply provide a glimpse into some of our capabilities. The Gemini - International is a full custom services firm. As such, it's our business to quickly adapt to meet our clients' diverse needs and we have a proven track record of doing just that.

Since 2000

ABOUT OUR SERVICES

We write code. However, unlike most software companies, we realize that's only part of the job. We don't just write code... We develop professional software. This is why our clients choose The Gemini - International . Our ability to develop code is only the beginning of our capabilities. Being a "custom" firm, The Gemini - International is able to provide our clients with a variety of services.
